**This segment of Kalsman Institute's *Week of Jewish Wisdom and Wellness*** is a rare opportunity to explore the lesser-promulgated wisdom of the Jewish Shamanic tradition. Rabbi Miriam Maron, PhD and Rabbi Gershon Winkler, PhD, will introduce participants to ancient and early-medieval Aramaic and Hebraic source texts as well as oral traditions from which this long-neglected body of wisdom originates. Marc Weigensberg, M.D., Associate Professor of Clinical Pediatrics at the USC Keck School of Medicine and a teacher of Jewish spirituality as well, will help bridge these ancient modalities of healing to the contemporary sciences of modern medicine.
